

JAPAN DIE CASTING CONGRESS & EXPOSITION

**Guidebook for
Optional Package Booth**

- ◇ November 12 (Thu) - 14 (Sat), 2026
- ◇ PACIFICO Yokohama Exhibition Hall C and D

Introduction

We would like to express our sincere gratitude for your attendance at the 2026 JAPAN DIE CASTING EXPOSITION.

To conserve resources and address environmental concerns, the Secretariat will be using standard booths constructed with system panels.

In line with this, we have prepared a “system package booth” aimed at making exhibition preparation efficient and reducing decoration costs. We highly recommend taking this opportunity to use the “System Package Booth.”

Exhibitors wishing to use this booth are kindly requested to submit their application forms to the address below by the respective deadlines.

Booth Layout

All units are in mm.

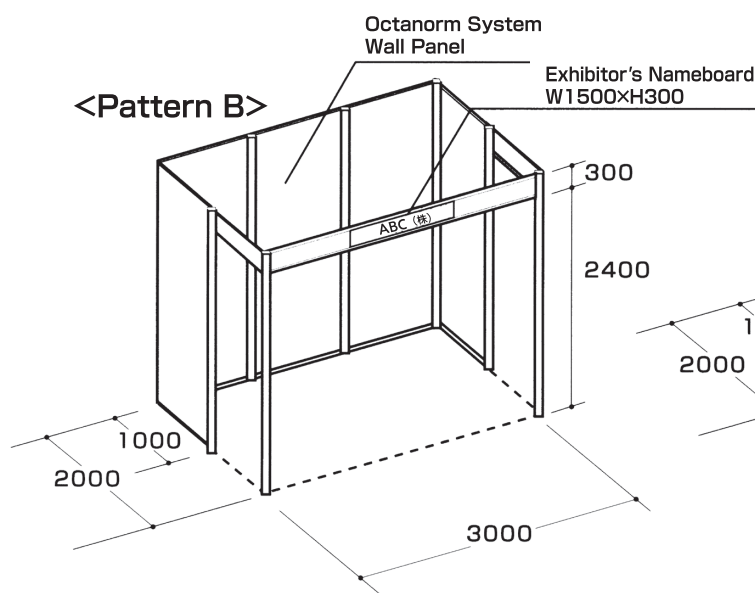

<Pattern A>

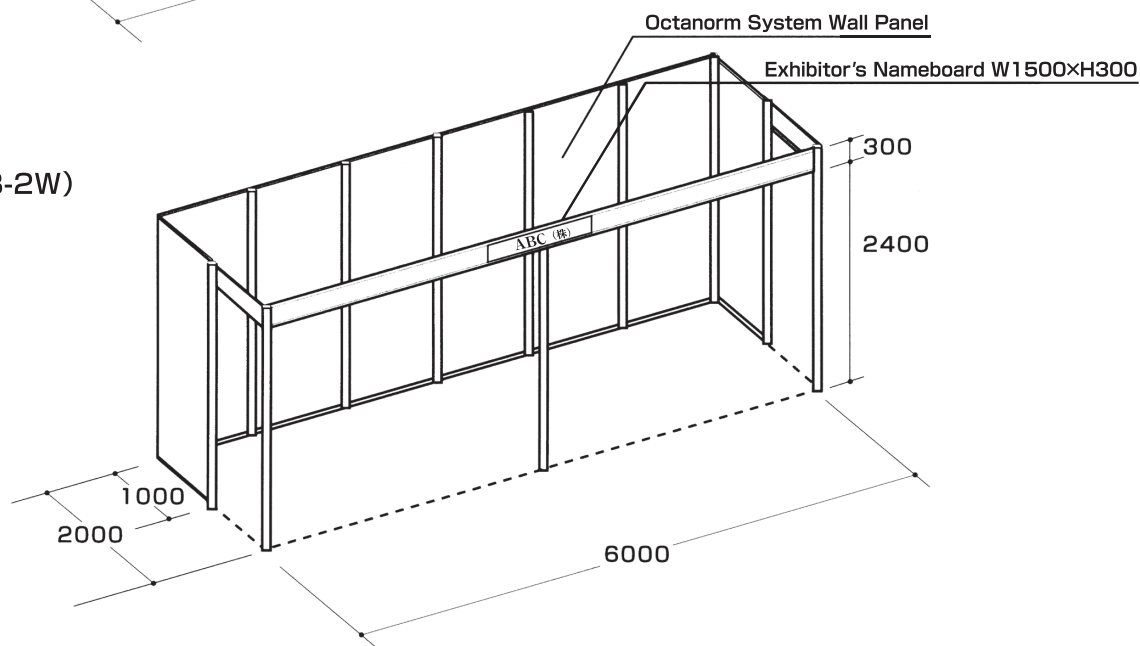

<Pattern C>

<Pattern B>

(Example: B-2W)

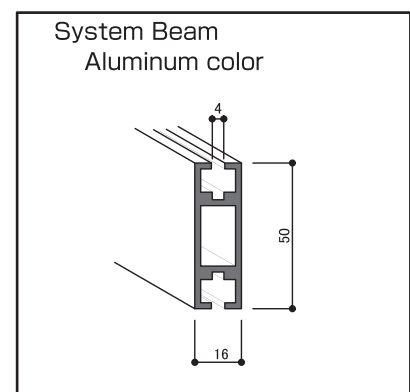

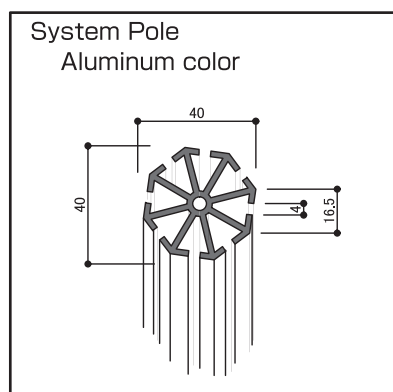

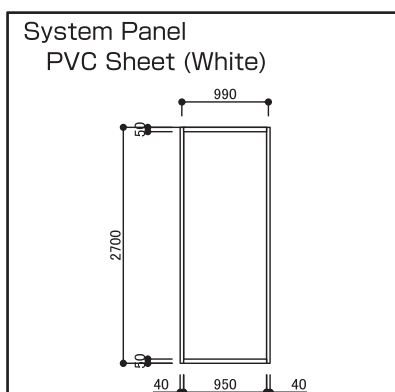

*The exhibition fee for Pattern A covers the space only.

Pattern B and Pattern C include the partition walls (System Wall Panels) and an Exhibitor's Nameboard as well as the booth space.

[Precautions: System Wall Panels]

- System Wall Panels are painted plywood panels (white on both sides), so direct decoration or processing is not possible. You may use clear tape, but please do not use thin double-sided tape or paper-backed duct tape, as they may leave residue. Please use products that allow for restoration to the original condition.
- When installing information / ads / explanation panels and similar items, please ensure that they can be suspended using chains or similar equipment.
- The panels, poles, beams, and other components of the system must not be cut, nailed, drilled, or otherwise modified. In the event of damage or breakage, damage fee will be billed. However, drilling for water supply, drainage, and air installation work will be carried out by Murayama Inc., so please be sure to indicate this on the application form.

◆ System Component Specifications and Basic Dimensions

Package Booth

Exhibitors wishing to use a package booth should apply using the application form. Before the submission of the form, please confirm the following contents carefully.

1. Booth Decoration

- Package Booth includes a folding chair and a reception counter as default rental items.

If you need other leased items, please order from the optional items list.

- As for carpet, please select the color from the sample list.
- The package booth includes 1 Exhibitor's Nameboard for a booth. (Black, Gothic font on the white baseboard.) If you wish to use your company logo, an additional cost will apply. When applying for this, Exhibitor has to send the Graphic data to MURAYAMA Inc. with AI data (with trim lines (+10mm on each side.))

2. Electrical Work

- The cost of the package booth does not include primary electrical installation costs or electricity usage charges.

To have your electricity service activated, you will need Application Form ③.

- Electrical facilities other than the Package such as spotlight, power outlet are optional (will be charged separately).
- If the total capacity (wattage) exceeds 1,000W (1.0kW) with optional items, power distribution board is required by law and charged separately.

3. Water Supply and Compressed Air Supply

■ The Package Booth does not include:

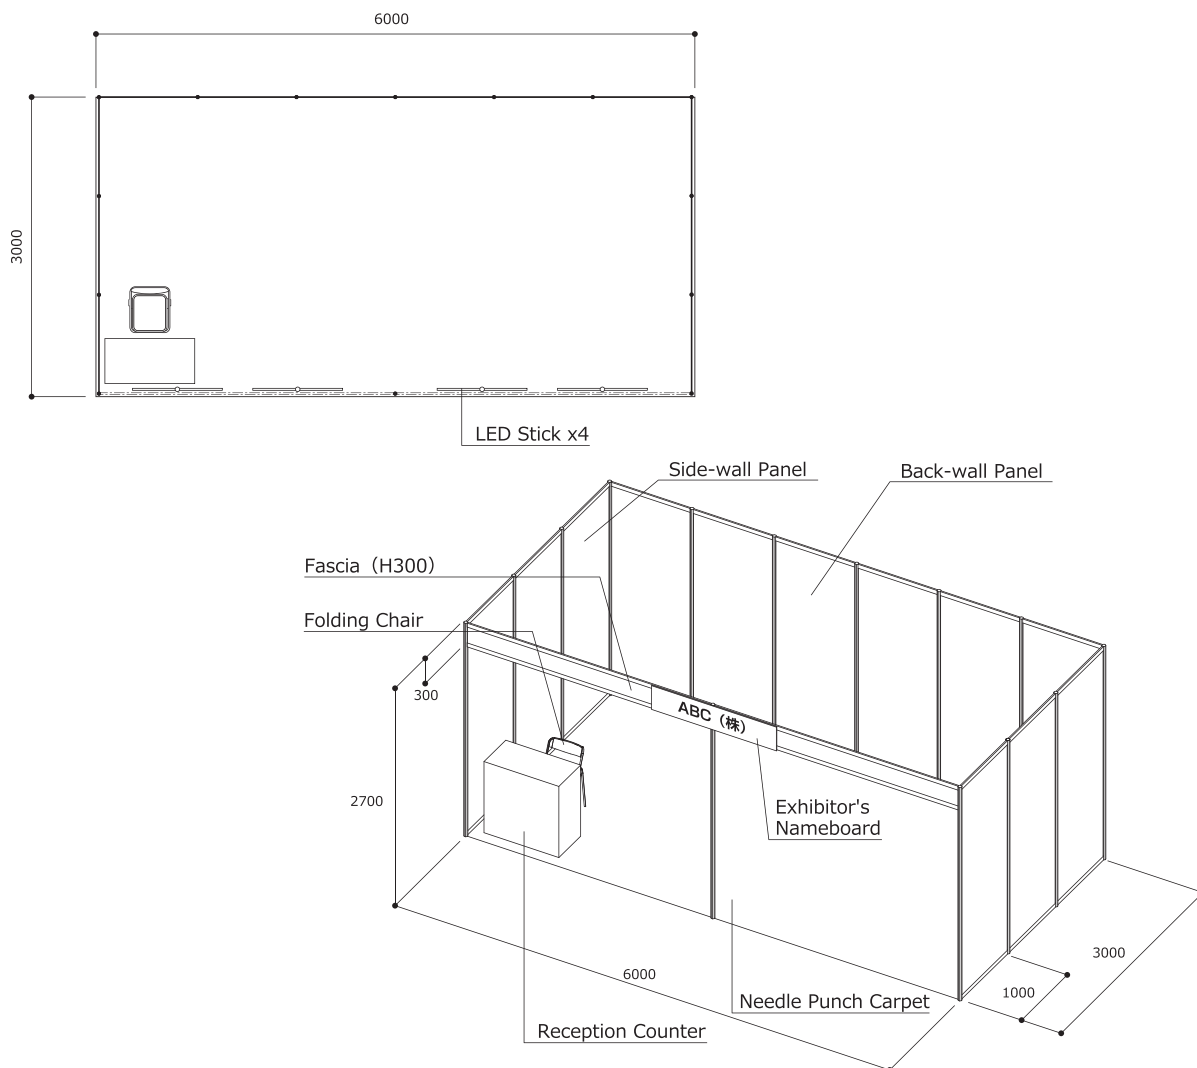

- Water supply / Drainage / Piping and Plumbing
- Water usage
- Compressed Air Supply

Please submit the application forms, if necessary.

4. Others

■ Please feel free to contact Murayama Inc. if there is any other inquires.

Package Booth <type A-1>

■ **Optional Items** *To have your electricity service activated, you will also need Application Form ③.

■ Layout Drawings

Layout Sample

50 inch Display Monitor 110W

Booth Front

Symbols

Spotlight

Outlet

The diagram shows a rectangular booth layout. On the left wall, there is a 50-inch display monitor and a spotlight. On the right wall, there is an outlet. The front of the booth is open. A legend on the right identifies the symbols: a triangle for the spotlight and a circle with a dot for the outlet.
